Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

Introduction

Gary Skusek

DAIM – FDC

Construction Program Manager

(703) 692-9213

skusekgs@hqda.army.mil

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

- **Current DoDD dated 1982**
- **OSD has recently staffed this DoDD for revisions**
- **Their draft had no changes**
- **DAIM-FDC solicited comments from**
  - **EUSA**
  - **KORO**
  - **USACE / POD**
- **Comments provided to OSASA(IH)**

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

- **ODASA(IH) suggested wholesale changes to have this DoDD cover all similar programs (i.e., PIK)**
  - **These changes would have eliminated paragraph 4.e. – the one that has caused the problems**
- **OSD wanted to keep this DoDD focused on PACOM Host Nations (Japan / Korea)**
- **DoDD – Para 4.e "Secretaries of the Military Departments, or designees, shall:"**
  - **"Program the US funds for, procure, and install U.S. equipment that is collateral to the HNFCP**

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

- **COL King's (EUSA Engineer) recommended change:**
  - **"Common user equipment collateral to HNFCP projects may be funded by host nation funds, where appropriate. Otherwise, program the U.S. funds for, procure, and install U.S. equipment that is collateral to the HNFCP project."**
  - **Requested that HQDA stay away from requiring EUSA to use host nation construction funds**
- **EUSA is attempting to establish a C4I host nation funding category which they could use for some C4I equipment**
  - **7% to 8% suggested**

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

- **My Confusion:**
  - **DASA(IH) memo refers only to Items listed in Table L of AR415-15**
  - **It appears EUSA was concerned that they could not program SIPR and similar items that are not covered in Table L**
  - **Perhaps even the new Table L needs an update**
    - **What is a Common User item under Info & Data Processors, under the LAN heading (#4)**
  - **AR415-15 currently in coordination until 30 Jun**
  - **It's posted on the AKO site (upcoming briefing)**

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

Current Situation:

- **ODASA(IH) Non-concurred - trying to set up a meeting with OSD to discuss changes to the DoDD – no date yet**
- **EUSA recommends we revise DASA(IH) memo**

  "For Host Nation Funded Construction, the procurement and installation of these components will be resourced from host nation funds, when available."

- **ODASA(IH) has re-issued – 17 Jun 04**

"For host nation funded construction … procurement & installation … will be resourced from host nation funds."

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

Current Situation:

- This may still be a problem of conflict with the DoDD
- ROK resisting effort to negotiate funding these items in the HNFCP
- Problem:
  - If ROK does not fund
  - If Army will not program

- **WHO PAYS ??????**

Agenda Item 4

Host Nation Funded Construction Program
DoD Directive 4270.34

- **Questions?**
- **Comments?**
- **Open Discussion**
